

single source solutions

We are pleased to announce that, effective March 27, 2009, ICAS was awarded the **Office of General Services (OGS) Contract** for the New York State Network Wiring Services in Suffolk County, Nassau County, and New York City for schools and government agencies. Our contracted customers can now enjoy a long list of benefits and services, including:

BENEFITS

- Cumbersome bid process eliminated
- Reduced rates and support for network wiring installation
- Comprehensive network wiring services
- Quality contractors
- Certified technicians with the latest wiring infrastructure components
- Streamlined process for requesting and receiving services

For over 30 years, ICAS has helped students and educators achieve their greatest potential by implementing advances in communications technology. Contact ICAS today for supporting all your technology needs throughout your network.

SERVICES

- Complete Network Wiring Infrastructure installations for all your network systems including data network, security system, phone systems, intrusion system and video systems
- Design build, repair, moves, adds, and changes
- CAT-5, CAT-5e, CAT-6, and CAT-X installations
- Fiber optic cable installation, multimode, and single mode
- Testing of all infrastructure installations
- Certification of all installations
- Documentation of all installations
- Onsite support to compliment network staff
