

SINGLE SOURCE SOLUTIONS

ICAS[®]

**NETWORK
INFRASTRUCTURE
TECHNOLOGY**

ONE COMPANY...EVERY SOLUTION

Managers who seek advanced infrastructure designs for complex information and communications networks, within single-building and multi-site enterprises, turn to ICAS for state-of-the-art technology solutions.

ONE TOUCHPOINT...EVERY COMMUNICATION

To ensure the successful completion of multifaceted integrations, ICAS assigns to each client a dedicated oversight manager who is accountable for every aspect of the project, from concept to delivery.

ONE PARTNERSHIP...EVERY GUARANTEE

ICAS stands behind its representations, adhering to traditional business values, ethical practices, professional expertise, advanced technology, support, and customer service to build lifelong clients and vendor partnerships.

a legacy

For 30 years, ICAS has supplied optimum turnkey network solutions to a diverse and emergent client base on a local, regional, and national level within the public, private, and government sectors.

We support global enterprise clients, among them are the top 50 companies of the Fortune 500; we integrate vital products and services to sustain fast and efficient communications systems in numerous industry sectors:

- Finance
- Education
- Retail
- Energy
- Government
- Hotels
- Health Care

SERVICES BY INDUSTRY

ICAS architects enterprise change for industry leaders formulating limitless technology options and customizable solutions:

Finance

- Site Surveys
- Infrastructure Build Outs
- Custom Patch Cable Assemblies
- Upgrades
- MAC Activity
- Managed Services
- Technology Personnel Resources
- Products

Education

- Site Surveys
- Infrastructure Build Outs
- Security
- Campus Wide Infrastructure
- Upgrades
- Data, Voice, Surveillance, and Intrusion
- MAC Activity
- Audio Visual

Retail

- Store Build Outs
- Upgrades
- Data, Voice, Surveillance, and Intrusion
- Master Service Agreement Schedule

Energy

- Infrastructure Build Outs
- Technology Personnel Resources
- Products

Government

- MAC Activity
- Installations
- Network Wiring Infrastructures
- Technology Support

Hotels

- Site Surveys
- Infrastructure Build Outs
- Upgrades
- MAC Activity
- Installations
- Managed Services
- Security

Health Care

- Site Surveys
- Infrastructure Build Outs
- Upgrades
- MAC Activity
- Installations
- Managed Services
- Security

CLIENT SATISFACTION IS THE TOUCHSTONE OF ICAS.

professional leadership

PARTNERS IN SINGLE SOURCE SOLUTIONS

To secure worldwide business leadership, companies procure advanced technologies. Successful global leaders rely on ICAS to plan, implement, and sustain their global, national, and local infrastructures.

ICAS is an established resource in technology initiatives. Our organization is positioned to handle any scale networking project with personal and dedicated services that reach beyond your project's lifecycle and the terms of our agreement.

Our teams of professionals are inspired by innovation; they are trained and certified in engineering, data, electrical and design work, dynamic information and communications, product procurement, project and contract management, implementation, and operational support. Each staff member is vetted through an extensive background check for security clearance.

**WE GUARANTEE THE
TOOLS AND RESOURCES
TO SUSTAIN YOUR
ENTERPRISE TECHNOLOGY.**

A SINGLE POINT OF CONTACT—FROM CONCEPT TO DELIVERY

A dedicated project manager (PM) is assigned to every project to bring value to our shared goals. The PM is:

- Professionally certified and experienced in technologies to implement complex integrations that improve efficiency and utilization
- Responsible for all aspects of your project's management:
 - Hands-on management
 - Project scope analysis
 - Strategic plan development
 - Product procurement
 - Team selections/assignments
 - Schedules
 - Implementation
 - Cost control to maximize project investment
- Your touchpoint in bi-lateral communications between internal and external teams including clients, vendors, and partners:
 - Conference calls
 - Site visits
 - Progress reports
- Ultimately, the person who delivers your project to your complete satisfaction—on time and within budget

superior project management

networking the world since 1979

ICAS designs innovative, customized, and secure infrastructures in data, voice, video (AV), security and wireless. We skillfully implement these plans from concept to delivery.

Core Competencies

Design, Engineering, and Implementation of Network Infrastructures

Structured Cabling Design and Installation Services

- End-to-End LAN and WAN Network and Computer Deployment
- Moves, Adds, and Changes
- Fiber Optic Network Installation for the Enterprise
- Fiber Optic and Copper Backbone Cable Installation
- Cable Plant Maintenance and MDF/IDF Cleanup
- Cable Plant Certification and Documentation

National Multi-site Rollout Solutions

- Rapid Deployment and Rollouts
- Site Surveys
- Structured Cabling
- Data Network Installation and Support
- Wireless Design and Implementation
- Electrical Installations
- RCDD Services including CAD design
- Moves, Adds, and Changes

Program Management Services

- Project Management
- Project Management of Infrastructure Operations
- Independent Installation Management
- Site Survey
- Quality Control, Quality Assurance, and Warranty

Voice, Data, and Video Infrastructure Installations

- IP Telephone Installation and Configuration
- Connectivity Testing
- Phone/PBX Configuration
- Repair and Maintenance
- Troubleshooting

Video and Wireless Technology Solutions

Security, CCTV/DVR, and Alarm System Integration

Electrical – Commercial and Residential

- New Construction or Renovation
- Outdoor/Parking Lot Lighting
- Isolated Computer Circuits
- Specialty Receptacles
- HVAC Power and Controls
- Fire Alarm, Speaker Strobe
- Pull Stations

Network Wiring Infrastructure

- Testing/Certification/Evaluation
- Support/Service
- Product Procurement
- Contract Resource Support

Network Equipment Installation

- Rack and Stack of Network Components
- Rack and Stack Equipment Installation and Configuration Coordination

Consulting Services

- Cabling (copper, fiber, coax, electrical)
- Rack and Stack
- Deployments
- Video and Surveillance
- Intrusion
- Telecom
- Desktop
- Project Management
- Electrical
- MAC Activity
- Project Management Services
- Technology Personnel Resources

Desktop, Relocations, and Deployment Services

- Desktop
 - Disconnect and Reconnect Equipment (PC, Monitors, Printers, Phones, etc.)
 - Log In, Test Connectivity, and Assist in Q&A
 - Troubleshoot Issues
- Deployment
 - Unpack Equipment, Assemble, and Connect to Specified Locations.
 - Troubleshoot Issues
 - Perform PC Upgrades (memory card and video card replacement)
 - Test Network Connectivity
- Scanning
- Phone Deployment (Cisco Platform)
- Break Fix

NO CHALLENGE IS TOO GREAT OR TECHNOLOGY TOO COMPLEX FOR ICAS.

presence & influence

NATIONAL & GLOBAL MULTI-SITE ROLLOUTS

With strategic partners and dedicated resources across the United States and abroad, including Puerto Rico and St. Croix, ICAS is an extended corporation expert in multi-site rollouts, from retail locations to large scale and complex deployments.

National deployment teams are ICAS trained. This model extends our resources and solutions to deliver turnkey infrastructures, without our clients needing to leave their office to visit remote locations.

Success is attributed to oversight management and accountability. Each client is assigned a dedicated project manager to oversee project preparation, staging, delivery, installation, and cutover to ensure success. There is continuity and comfort in knowing that the same person is taking care of your project from concept to delivery.

National multi-site rollouts encompass many ICAS services nationwide:

- Rapid Deployment and Rollouts
- Site Surveys
- Structured Cabling
- Data Network Installation and Support
- Wireless Design and Implementation
- Electrical Installations
- RCDD Services including CAD design
- Moves, Adds, and Changes

VALUED RESULTS

In this climate of ever-changing communications and technology, there is no limit to the single source solutions that ICAS can provide. Let us present a concept to fit your needs.

Your satisfaction, business needs, and how we supply them are the explicit purpose of ICAS, which is demonstrated by our leadership position and high client retention rating.

We promise valued results.

building relationships

GET WHAT YOU WANT, WHEN YOU WANT IT, WITHIN YOUR BUDGET.

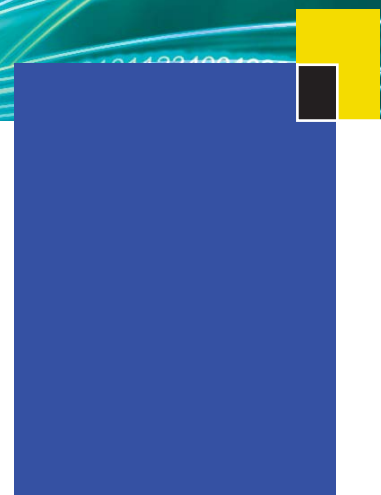

single source solutions

OUR VISION & MISSION

Our vision is to provide our clients with single source solutions in network infrastructure technology—from concept to delivery.

We strive to be a leader in global communications, entrepreneurship, and discovery by providing businesspersons, educators, students, and consumers with innovative networking communications technology, services, and support to advance free enterprise and learning.

ICAS remains a national leader in providing competitive turnkey network infrastructure designs and installations of wire and wireless networks, copper and fiber cable systems, security, CCTV, and data installations. Our company has achieved its leadership position through insightful solutions in project management, consultation, development, and network certifications for our clients.
